

Neurofeedback Rates			
Session Type	Session Details	Length of Appointment	Cost
Neurofeedback Intake Appointment <i>NFI90</i>	During this visit we will go over your paperwork, have a discussion of training goals, collect baseline brain wave data, and begin formulating your training plan.	60-90 minutes	\$300 <i>(not covered by insurance)</i>
Neurofeedback Training Session <i>NF30 (90901)</i>	During this visit you will train your brain toward your goals. There is time for review of session data and discussion. Total number of sessions needed varies widely for each individual and their particular circumstance. However, generally we see good, lasting benefits after 30-40 sessions.	45-60 minutes	\$150 per session
Neurofeedback/Psychotherapy Combination Session <i>NFP30 (90875)</i>	These sessions combine neurofeedback and psychotherapy into one (typically 20 minutes of neurofeedback and 10 minutes of psychotherapy).	30 minutes	\$120 per session
Neurofeedback/Psychotherapy Combination Session <i>NFP45 (90876)</i>	These sessions combine neurofeedback and psychotherapy into one (typically 30 minutes of neurofeedback and 20 minutes of psychotherapy).	50 minutes	\$150 per session
Prompt Pay Package	10 sessions = \$1,500 - 60% discount = \$600 (does not include initial session)
