

DISCOUNT FEE POLICY

POLICY

Christian Family Solutions offers financial assistance to qualified clients that are based upon family/household size and annual income. A sliding fee schedule is used to calculate the discount and is updated each year using the Federal Poverty Guidelines. If approved, the discount will be honored for three months, after which the client must reapply. At any time the client's financial situation changes, a new application is required. If a client is listed on a federal tax return as a "Qualifying Relative Dependent," the combined client's and the household income is taken into consideration when calculating the annual income.

DISCOUNT APPLICATION PROCESS

A completed application including the home address, household income, and insurance coverage must be on file prior to or at the time of the visit. Before a discount is granted, the billing department will review the application for approval. If the applicant appears to be eligible for Medicaid, a written denial of coverage by Medicaid may also be required. A decision will be made within 5 business days of receipt of the application.

An application can also be downloaded from:
