

STRONG Day Treatment Program

There is always hope for healing

Day treatment services are now available.

This program provides a safe, structured environment to help kids overcome emotional and behavioral challenges. Kids can enroll in the program at any time.

What is day treatment?

STRONG provides year-round intensive mental health services to children and adolescents (ages 5-14) in a safe and structured setting.

STRONG day treatment is:

- Trauma-informed and culturally-sensitive therapy
- 3-4 hours per day of group therapy, plus individual and family therapy
- Morning and afternoon groups that run Monday through Friday
- 5 days a week for about 2 to 3 months

Day treatment can help with these problems:

- Difficulty because of stressful events such as gun violence, domestic violence, physical or sexual abuse, personal injury, or death of a loved one
- Risk of academic suspensions or expulsions
- Defiance, rage, outbursts, threats, or aggression
- School truancy and behavioral issues in school
- Hyperactivity, impulsive behavior, or difficulty paying attention

Where does day treatment take place?

The STRONG MILWAUKEE Center
510 East Burleigh Street
Milwaukee, WI 53212

How can a child be referred?

- Children can be referred by their parents, school, or outpatient providers.
- Call **262.293.9747** to speak to a staff member. They will ask more about your child and schedule a diagnostic assessment with the STRONG program psychologist to determine if day treatment is the best fit for your child.
- Prior to a child beginning the program, a parent or legal guardian will need to meet with our staff to review program expectations. A separate meeting will also be scheduled to sign consents for treatment.

What is the cost of day treatment?

We accept most major insurance plans, and many insurance networks cover the cost of day treatment.

How will my child get to day treatment?

Medicaid will pay for medical transportation to bring children to and from the STRONG program.

What happens after my child completes day treatment?

The treatment team will work with you to create an appropriate aftercare plan for your child. Your child will have the opportunity to participate in the STRONG aftercare group.
