

Breaking Free from Gambling Addiction

Assessments and treatment are available from Christian Family Solutions, in-person or through telehealth

Gambling addiction ruins lives. So often, those impacted do not find help due to shame or lack of financial means to pay for treatment.

Now those in gambling's grips can receive compassionate and effective treatment from the experienced counselors at **Christian Family Solutions**. A grant from the Minnesota Department of Health and Human Services removes the financial barrier.

The path to healing and help starts with a **Comprehensive Gambling Assessment**. Then our counselors will recommend a treatment plan, if a gambling disorder is diagnosed, that will include individual services and/or group treatment at Christian Family Solutions, or an outside referral if requested.

Clients may choose in-person treatment or telehealth sessions.

In-Person Treatment at:
